

# Pittosporum Perfect Pillar

## **Pittosporum Perfect Pillar**

Pittosporum Perfect Pillar has a neat, rounded silhouette and pale green, oblong leaves that contrast attractively with the black stems.

Small brown flowers with a distinctive honey scent appear in spring.

Medium to fast growing, it is an easy to grow shrub and is ideal for screening, hedges or as a specimen plant. Grows to a height of 3-4m and width of 3m.

Thrives in a sunny to partly shaded position in well drained soil. Responds well to pruning and benefits from summer watering.
